

Product Description

K750 FlowMask™ is a high grade Japanese Washi Masking Tape. It consists of an ultra thin, flat, dense paper backing coated with a special emulsion acrylic adhesive system.

Product Features

- Ultra thin to create very sharp, crisp edging
- Sits flat and so no edge bleed on smooth surfaces
- Very strong so strips without breaking
- Paint remains adhered to tape and does not flake-off when removed
- Excellent thermal stability to 100°C
- Excellent UV stability, up to 90 days outdoors
- Available in retail format 18, 24, 36 & 48mm widths and bulk

Benefits

- ✓ Gives perfect, straight masked edges on all smooth surfaces
- ✓ Removes without a residue, for up to 90 days outdoors
- ✓ No bleed through with solvent-heavy paints, reducing clean up
- ✓ Ultra strong so can be used for masking caulking and sealants

Key Markets

- The perfect accessory for tradesmen requiring a quality finish
- All outdoor applications, particularly for boat builders, marine and DIY
- Two pack and spray painters
- Auto finishing and low bake overs
- Caulkers and sealing applicators (remove when partially cured for best results)

Applications

DISCLAIMER:

Values: All values presented have been determined by standard test methods and are average values only.

Recommendations: Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

Warranty: We can only warranty our products to the level that they are consistent with our Product Information Sheet values

BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.
