

### Product Description

**K750 FlowMask™** is a high grade Japanese Washi Masking Tape. It consists of an ultra thin, flat, dense paper backing coated with a special emulsion acrylic adhesive system.

### Product Features

- Ultra thin to create very sharp, crisp edging
- Sits flat and so no edge bleed on smooth surfaces
- Very strong so strips without breaking
- Paint remains adhered to tape and does not flake-off when removed
- Excellent thermal stability to 100°C
- Excellent UV stability, up to 90 days outdoors
- Available in retail format 18, 24, 36 & 48mm widths and bulk

### Benefits

- ✓ Gives perfect, straight masked edges on all smooth surfaces
- ✓ Removes without a residue, for up to 90 days outdoors
- ✓ No bleed through with solvent-heavy paints, reducing clean up
- ✓ Ultra strong so can be used for masking caulking and sealants

### Key Markets

- The perfect accessory for tradesmen requiring a quality finish
- All outdoor applications, particularly for boat builders, marine and DIY
- Two pack and spray painters
- Auto finishing and low bake ovens
- Caulkers and sealing applicators (remove when partially cured for best results)

### Applications

#### DISCLAIMER:

**Values:** All values presented have been determined by standard test methods and are average values only.

**Recommendations:** Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

**Warranty:** We can only warranty our products to the level that they are consistent with our Product Information Sheet values

**BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.**
