

Product Description

SK612 is a translucent woven polythene All Weather Cloth. Tape supplied on a siliconised white paper release liner.

Product Features

- An ultra high strength woven HDPE laminate cloth backing
- A very high tack and coat weight acrylic adhesive
- Siliconised paper liner

Benefits

- ✓ A thick, strong but flexible woven backing, cannot be torn by hand
- ✓ Extremely high tack for sealing applications, adhesive strength builds over time
- ✓ Excellent UV resistance for outdoor applications
- ✓ Good thermal range
- ✓ Release liner allows cutting with scissors to create repair patches of use as part of repair kit (cut with rounded corners to help stop lifting)
- ✓ Translucent and so can be used on any coloured material as a temporary/permanent repair product

Key Markets

- For patching and repair of tarpaulins, groundsheets and truck taught liners
- Creation of repair patches for a wide range of smooth and textured fabrics
- Suitable for use on PVC backed surfaces where a long-term waterproof and air-tight seal required
- PE sheeting repair—silage, shrink, hydroponics
- DIY repairs, recreational and leisure activities such as caravan, camping and marine activities (e.g. sealing cracked skylights, holding damaged trim, repairing split seat covers)

DISCLAIMER:

Values: All values presented have been determined by standard test methods and are average values only.

Recommendations: Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

Warranty: We can only warranty our products to the level that they are consistent with our Product Information Sheet values

BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.
